PROFESSIONAL
EXPERIENCE

Full Stack Developer | August 2022 – Present

mutlumesaj mobile app, İstanbul

- Led backend development for core product features and internal tools, ensuring stability and scalability.
- Built and improved backend APIs (RESTful), scheduled jobs, real-time notifications
- Developed asynchronous workers for handling heavy, repetitive tasks efficiently
- Developed responsive websites
 - <https://www.mutlumesaj.com.tr>
- Developed emails using HTML and CSS
- Developed web admin panel features in which admins interact with users
 - sending notifications, scheduled or immediate
 - data visualizations through multiple responsive detailed graphs
 - uploading content and handling complex forms
- Collaborated closely with the frontend team, developing new UI features, which significantly strengthened my frontend skills
- Integrated AI-based test features, including real-time voice streaming and image generation tools.
- Played a key role in two successful investment rounds, with technical delivery and team leadership contributing to investor confidence.

–
